

Professional Loosefill Insulation System

## PRODUCT FACTS

- ProCat™ bags contain 18% more material than AttiCat®
- ProCat™ blower installs 10% faster than AttiCat®
- No dust, no itch
- Does not settle or compact over time
- Does not burn

## CONTRACTOR REMINDERS

- Extension Cord (minimum 14 gauge up to 50' max)
- Must use full 100' of hose in order to condition insulation properly
- Blow insulation at high speed to get started
- Blow at low speed only when more control is needed (attic access openings and baffles)
- Fill out tax credit sheet
- Always use the full number of bags required
